

Voice to the Village

Reaching Villages with the Message of Hope

1st Quarter 2013

World Missions Summit III

We had the opportunity to attend the World Missions Summit III in Fort Worth, Texas along with missionaries Lattis and Sharlotte Campbell.

We presented Alaska Missions at 3 one hour workshops and at our booth. The evening Gatherings were deeply moving. Tears came to my eyes as I watched 4500 college students worship God with complete abandonment. On Sunday, 950 Students responded to the call to give a year and pray about a lifetime.

They flooded to the alter area and started singing I give myself away so you can use me.

This act of dedication touched me to my very core. Our future is Bright! Students told me they wrote ALASKA on their Give A Year commitment cards. While sitting at DFW waiting for my flight back to Alaska, a girl came up to me and said, " I recognize you from the World Missions Summit. You are from

Alaska. My friend filled out the 1 year commitment card and wrote Alaska on it." I know we will see fruit from the seed we planted!

AK Trail Ministry

*Today was also a big day for Pastor Terry Hull and myself. We drove out

ahead of the mushers on Terry's snow machine and handed out 1,250 "Mush To Life" booklets with a "Mush to Life" lip balm in a zip lock bag. It only took 15 miles to hand out all the gifts. There were 5,000 snow machines counted on the Iditarod trail today, according to the head trail groomer.

In John 20:21 The Lord said again, "Peace to You! As the Father has sent Me, I also send you." Many times Terry and I heard people tell us that we were God sent or heavenly sent to them.

They needed the Mush to Life lip balm for the healing of their lips. Then they would ask about the " Mush to Life" booklet.

Live Webcasting

For the first 3 months of this year we have had 5,411 Computers and 4,428 iOS devices view live streaming. This is a total of 9,839 individuals or groups that have connected to live services and special events from Alaska. We continue to have opportunities outside the expected church setting.

The memorial service for Pastor Tom Madole, who was working as Village Public Safety Officer in Manokotak, was viewed online from all regions of the state. We are honored to provide DvD's of the service to VPSO officers all across Alaska. A small TV station in one of our locations will rebroadcast the service to their region. These special events provide us additional opportunities to get the **Gospel into every home in Alaska.**

U.S. Missions National Rep.

We attended meetings with the Intercultural team at American Indian Bible College in Phoenix in February. I'm humbled and honored to work with Malcolm and the team in headquarters and to represent our awesome Missionaries in Alaska. Great days are ahead!
